

FACIAL TREATMENTS

ALEXANDRA SOVERAL SIGNATURE FACE

Exclusively available at Daniel Hersheson Harvey Nichols. A non-invasive approach to a youthful appearance is achieved by releasing tension within the facial muscles and connective tissues. This signature facial helps tone the muscles and rejuvenate the skin. Deep tissue massage and lymphatic drainage squeeze toxins out and encourage oxygenated blood into every cell, transporting vital nutrients to form healthy skin. This treatment is also very effective in relieving sinus problems, headaches and tension in the neck and shoulders which can often add stress to the face. A treat for your face, this intensive facial leaves your skin looking smooth, plumper and feeling rejuvenated. The Beauty Therapists at Daniel Hersheson are the first in London to be personally trained by Alexandra Soveral to perform this treatment.
